GUSTAVO ADOLFO MACÍAS MUÑAN

IT SUPPORT | SYSTEMS ASSISTANCE | IT INFRASTRUCTURE

Jalisco, Mexico | gamacias02@gmail.com | linkedin.com/in/gustavo-adolfo-macias-munan

PROFESSIONAL SUMMARY

Computer Engineering graduate and Office Computing Technician with experience in end-user technical support, hardware and software troubleshooting, connectivity issues, and basic IT infrastructure administration. I have supported approximately 50 users, documented solutions, and followed incidents through resolution. Comfortable with Microsoft 365, Excel, technical documentation, and information-management tools.

TECHNICAL SKILLS

Technical support: End-user support, hardware/software troubleshooting, workstation setup, application installation, remote assistance, and incident follow-up.

Microsoft & collaboration: Windows 10/11, Microsoft 365, Outlook, SharePoint, OneDrive, PST, shared mailboxes, Word, Excel, and PowerPoint.

Networking & infrastructure: TCP/IP, DHCP, SMB, VPN/IPsec, LAN connectivity, Fortinet 100F, Cisco, Avaya IP Office, and Hikvision.

Tools: TeamViewer, Git/GitHub, Linux/WSL, Docker, SQL Server, MySQL, and PostgreSQL.

PROFESSIONAL EXPERIENCE

IT Support Jr. **Mar 2026 - May 2026**

- Provided technical support to approximately 50 users, resolving software, hardware, workstation, printer, and connectivity incidents.
- Supported OneDrive/SharePoint backup and synchronization, PST migrations, shared mailbox workflows, and remote assistance with TeamViewer.
- Troubleshot network issues and supported infrastructure and VPN operations in Fortinet and Cisco environments; documented solutions and followed incidents through resolution.

Internal Software Developer | Federal Electricity Commission (CFE) **Aug 2024 - Nov 2025**

Professional residency

- Digitized and automated an internal budgeting process, reducing a task that could take up to 15 days to a few hours.
- Organized supplier and work-concept information, implemented validations, and generated exportable PDF and Excel reports.
- Prepared documentation, performed testing, and handled operational adjustments and incidents related to the system.

WEB DEVELOPMENT AND AUTOMATION

Hands-on experience with HTML, CSS, JavaScript, TypeScript, React, Node.js, Express, PHP, C#, .NET, REST APIs, and relational databases. This background strengthens my ability to understand, troubleshoot, and support business systems beyond conventional end-user support.

EDUCATION AND LANGUAGES

B.Eng. in Computer Engineering | Tecnológico Superior de Tequila **2020 - 2025**

Technical Diploma in Office Computing | CBTA No. 106 **2017 - 2020**

English: B1 intermediate - technical documentation and basic written communication.
