GUSTAVO ADOLFO MACÍAS MUÑAN

SOFTWARE DEVELOPER | BACKEND & WEB DEVELOPMENT

Jalisco, Mexico | gamacias02@gmail.com | linkedin.com/in/gustavo-adolfo-macias-munan | github.com/GustavoMacias607

PROFESSIONAL SUMMARY

Computer Engineering graduate and software developer with professional experience building web solutions for real-world processes and project-based frontend collaborations. I work with C# and ASP.NET Core, Node.js and Express, React and TypeScript, PHP, and relational databases. My focus includes APIs, business rules, persistence, validation, authentication, testing, and maintainable code.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core, Node.js, Express, PHP, REST APIs, JSON, authentication, and validation.

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS, HTML, and CSS.

Data: SQL Server, PostgreSQL, MySQL, SQLite, Entity Framework Core, relational modeling, migrations, and transactions.

Architecture & tools: Clean Architecture, layered architecture, Repository Pattern, dependency injection, Docker, Git/GitHub, Jest, Supertest, Visual Studio, and VS Code.

RELEVANT EXPERIENCE

Internal Software Developer | Federal Electricity Commission (CFE) **Aug 2024 - Nov 2025**

Professional residency

- Designed, developed, and delivered SIFCAO, an internal PHP, MySQL, and JavaScript application that automated technical budgeting and reduced a process that could take up to 15 days to a few hours.
- Translated user requirements into business rules, validation workflows, SQL queries, supplier comparisons, and PDF/Excel report exports.
- Tested and troubleshot the application, documented processes, supported users during implementation, and managed source changes with Git.

Frontend Developer - Project-based collaborations **2023 - 2025**

- Built web interfaces and features with JavaScript, React, Next.js, and Tailwind CSS in independent project collaborations, with basic exposure to Laravel.

IT Support Jr. **Mar 2026 - May 2026**

- Supported approximately 50 users across Windows, Microsoft 365, hardware, and connectivity issues; documented solutions and assisted environments using SharePoint/OneDrive, Fortinet, and Cisco.

SELECTED PROJECTS

POS System API

Node.js | Express | PostgreSQL | Docker | Jest | Supertest

- Modular REST API for products, inventory, purchases, sales, cash registers, clients, and suppliers, including authentication, roles, sessions, transactions, and automated tests.

Barbershop Management

C# | ASP.NET Core | EF Core | SQL Server | Docker

- Appointment system in development using Clean Architecture, availability rules, overlap prevention, rescheduling, and automatic barber assignment based on availability and workload.

Veterinaria HappyPet

Kotlin | Java | Android | SQLite

- Mobile application for veterinary users, patients, and appointments with local storage, search, and camera photo capture.

EDUCATION, CERTIFICATIONS & LANGUAGES

B.Eng. in Computer Engineering: Tecnológico Superior de Tequila | 2020 - 2025

Certifications: ASP.NET Core 9 RESTful Web APIs (27 h, 2026) | Modern JavaScript (52.5 h, 2026).

Languages: Spanish: Native | English: B1 intermediate.
